Innovative funding for innovative companies

Experts in SR&ED Finance

At Easly, financing government tax incentive programs is all we do. Our Capital-as-a-Service approach enables us to deliver superior service and fast results.

The Canada Revenue Agency (CRA) SR&ED refund can leave you waiting up to 18 months to access your money. An Easly Advance is a simple solution that can accelerate your SR&ED tax refund, reducing the need to raise dilutionary capital and smoothing cash flow. There is no cost to apply.

With an Easly Advance, you can access 75% of your refund sooner. An Easly Advance is based on your accrued expenses, meaning you can start your application at any point in the year. There are no upfront costs and nothing to pay until the CRA refund arrives, keeping the whole process cash flow positive.

Grow Your Business Strategically

Any business receiving SR&ED tax refunds can apply for an Easly Advance and improve their cash flow and capital position. Easly Advances can be a great way to add diversity to your capital stack.

Working with Easly

Easly operates across Canada and works with businesses of all sizes. From IT and Life Sciences to Hospitality and Entertainment, Easly Advances are helping Canadian companies grow.

Advance Amount

75% of accrued SR&ED refund
